To Whom It May Concern:

This letter is to inform you that Green Clean is a concentrated cleaner and degreaser for food processing areas. This product is appropriate for sanitary use in a food processing or food service operation and will have no deleterious effect on food, provided the products are used in accordance with the provisions of this document, the product labels, Material Safety Data Sheets, and by trained personnel.

The product is intended for use in processing areas, non-processing areas and/or exterior areas of official establishments operating under the Federal meat, poultry, shell egg grading and egg products inspection programs, provided that it is not used to mask odors resulting from unsanitary conditions, and that any characteristic odor of fragrance does not penetrate into an edible product area.

The use of this product should be accompanied by written SOPs (Sanitation Standard Operation Procedures) specific for the product and its intended use. When used appropriately and in conjunction with appropriate documentation, this product could help meet compliance with the Sanitation Performance Standard Compliance Guide.

Using this product appropriately contributes to the successful implementation of your food safety plan that could include HACCP (Hazard Analysis and Critical Control Point) under USDA FSIS (Food Safety and Inspection Service) guidelines.

Sincerely,
Stan Hampton

Head of Technical Service
