

STAINLESS STEEL CLEANER

- *Cleans Deposits, Restores Luster and Protects Surface*
- *Use Also on Chrome, Aluminum, Steel, Brass, Copper and More*
- *Contains No Chlorinated Solvents or Ozone Depleters*
- *High Gloss Oil Based Formula*
- *Pleasant Lemon Fragrance*

Description

The blend of special cleaners and polish oils is ideal for use on brushed and high gloss metal surfaces. This product was specifically designed to use on stainless steel and most other metal surfaces such as chromium, aluminum, zinc, mild steel, brass, copper and silver. When used on these surfaces in accordance with the directions, this cleaner restores a "like new" brilliant shine and leaves a protective coat to help retard tarnishing. The pleasant lemon fragranced product does not contain any abrasives which might mar the finish.

20 ounce can.

Areas of Use

Applications for this product include restaurants, hotels, motels, industrial plants, dairies, cafeterias, office buildings, elevators, hospitals, nursing homes, department stores, grocery stores, schools and other institutions.

Directions

For best results, apply with a clean cloth, damp or dry. Spray stainless steel polish directly on surface or cloth. Rub briskly on surface, working with the grain if possible. Use sparingly...a little goes a long way. Polish surface with a clean, dry cloth. Allow up to 5 minutes to dry before using surface.
