

DISINFECTANT
PATROL
DETERGENT

Works well in out side Rest rooms as cleaner and disinfectant.
Works well on animal quarters and kennels to kill Canine Parvovirus.

CLEANER - DETERGENT - DEODORIZER - MILDEWSTAT - DISINFECTANT - FUNGICIDE - CANINE PARVOCIDAL - With FRAGRANCE

PATROL has been designed to provide effective cleaning, deodorizing, and disinfection specifically for hospitals, nursing homes, households, animal quarters, kennels, schools, parks and recreation areas, food processing plants, food service establishments and other institutions where housekeeping is of prime importance in controlling the hazard of cross contamination. **PATROL** when used as directed, is formulated to disinfect inanimate hard surfaces such as walls, floors, sink tops, toilet bowls, tables, chairs, telephones, and bed frames. For larger areas such as operating rooms, patient care facilities and restrooms, this product is designed to provide both heavy duty cleaning and disinfection. When used as directed, **PATROL** will remove most household dirt in a single application. **PATROL** deodorizes those areas which generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, golf ball washing stations, toilet bowls and other areas which are prone to odors caused by microorganisms. Fragrances available: Floral, Neutral Fresh, Lemon, Pine, Mint, and Bouquet.

DISINFECTION - To disinfect hard inanimate surfaces apply solution with a mop, cloth, sponge or mechanical sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes and then let air dry.

GENERAL DISINFECTION - Add 4.5 ounces **PATROL** per gallon of water.

HOSPITAL DISINFECTION - Add 6 ounces **PATROL** per gallon of water. For heavily soiled areas, a pre-cleaning step is required. Prepare a fresh solution for each use. To disinfect toilet bowls, flush toilet, add 4.5 ounces **PATROL** directly to the bowl water. Swab the bowl completely using a scrub brush or toilet mop, making sure to get under the rim. Let stand for 10 minutes and flush.

VIRUCIDAL ACTIVITY - This product, when used on environmental inanimate hard nonporous surfaces at a dilution of 18 ounces per gallon of water exhibits effective virucidal activity against Canine Parvovirus.
