

POLI-CLEAN

Detergent Plus Floor Finish

A unique blend of cleaning agents and copolymer floor finish designed for maintenance cleaning and polishing of waxed or finished floors. Does not replace necessary periodic stripping and refinishing of the floor, but does reduce the frequency of major floor cleaning. Cleans and rejuvenates traffic and other high wear areas. Keeps floors at peak appearance and protection at all times with reduced cost of time and materials. Suitable for all types of floor and all types of finishes. Prevents wax build ups and discolored floors. Quick, easy and economical to use.

Directions For Use: Mix a solution of 1 part cleaner/finish and 8 parts of warm water. Do not use hot water. Apply solution liberally to soiled areas of entire floor and mop sufficiently to loosen soil. Wring mop in separate bucket and pick up loosened soil. Do not mop floor completely dry, only pick up surplus solution containing soil. Allow to dry. Then polish entire floor to a high gloss.

Spray buffing: Mix a solution of 1 part cleaner/finish and 8 parts warm water. Fill spray container with spray solution. Spray and buff until dry. Cleans, shines, and removes black marks in one easy operation.

Take advantage of Poli-Clean to cut costs. Cut waxing cost in half, cut labor expense, and keep floors looking great for days longer.
