DIRECTIONS FOR USE

This is a heavy duty, fast acting, concentrated liquid steam cleaner. Specifically formulated for removal of grease, oils; and imbedded soils on metal, wood, concrete, ceramic tile and most painted surfaces. This product works well in steam cleaners, high pressure washers, and other high pressure spray systems(enclosed jet washer systems).

TD-3 contains special inhibitors to protect against corrosion, scale and damage to heating coils.

DILUTION RATIOS:

Light duty cleaning.....1 part TD-3——128 parts water.

Medium duty cleaning.....1 part TD-3——64 parts water.

Heavy duty cleaning.....1 part TD-3 ——32 parts water.

For automatic proportioning equipment adjust till the cleaning effectiveness is satisfactory.

Rinse the detergent cleaner with clean water after use. Always check to be sure that this product does not effect surface to be cleaned at the dilution you choose. TD-3 provides convenient effective cleaning in and easy to use liquid form.

CAUTION: Contains sodium hydroxide. Avoid contact with eyes, skin, mucous membranes.
