

# White Sidewall Tire Cleaner

- **Concentrated-Dilutes with water**
- **Powerful- Penetrates through Dirt, Grease and oil**
- **Restores Like-New Appearance to White Wall Tires**
- **Safe-Biodegradable-Will Not Harm Rubber**

This concentrated, biodegradable white side-wall tire cleaner may be used as received or diluted with water up to 1:6, yet still clean and impart a “like-new” look to discolored and soiled tires. Product is ideal for use by auto dealerships, service stations, fleet services, car wash installations, car rental agencies, and taxi and transport services. This formulation requires a minimum of labor to rapidly and effectively remove dirt, oil, grease, road film, and rubber burns from white walls. No harmful chemical compounds, low odor, non-flammable, safe on rubber, rapid activity. Cleaned surfaces are bright, white, and free of residue.

## **Directions for use:**

For maximum efficiency, wet tires with diluted product from “high volume trigger sprayer” or 1-3 gal. hand pressure (#2102,#2103,or #2101) sprayer. Apply this solution to two tires to allow product to penetrate and emulsify soils and grease. This product works so well that usually you just spray the tire surface off with a pressure washer, if a pressure washer is not available agitate surface with brush, flush with clear water. Repeat this procedure on remaining tires. Always rinse tire completely. Allow to air dry.

**CAUTION:** Do not take internally. If this should occur, drink large amounts of water and acid fruit juice or a solution of water and vinegar. Do not induce vomiting. Contact physician. For eye or skin contact, flush area with clear water for 15 minutes. Seek medical attention if irritation persists. To avoid accidents, wear safety equipment during application procedure.
