

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Do not expose to extreme temperatures. Do not stack more than five drums high. Drums should be opened in well-ventilated areas. Leaking or damaged drums should be placed in over-pack drums for disposal. Spills should be absorbed in sawdust or sand and disposed of in a sanitary landfill. Keep container closed when not in use. Do not store near fertilizers, seeds, insecticides, or fungicides. Store at temperature above 32 degrees F.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse or equivalent. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

Uniformly spray one gallon of Emulsifiable Vegetation Killer Concentrate mixed in ten gallons of water over 1,250 sq. ft. of soil surface. Thoroughly wet all foliage to insure contact action. Best results are obtained when applications are made during or soon after weed emergence while growth is active. Where vegetation is tall and dense, use 1 1/2 gallons of Emulsifiable Vegetation Killer Concentrate in ten gallons of water per 1,250 sq. ft. for control of hard-to-kill perennial weeds and grasses such as Johnson grass, Bindweed, and Wild Carrot, use 3-4 1/2 gallons per 1,250 sq. ft. Although Emulsifiable Vegetation Killer Concentrate has considerable activity through the roots and therefore, adequate rainfall to move the chemical into the root zone is necessary.

Under conditions where the rainfall is high and the growing season long, a second application may be necessary to maintain a weed-free soil surface.

Care must be taken to keep this herbicide away from desirable flower beds, lawns, and shrubs. Do not apply over roots of valuable trees, or woody ornamental plants. Only apply herbicide outside of the drip line of trees. Avoid spray drift to desirable plants.

T.W.K. II

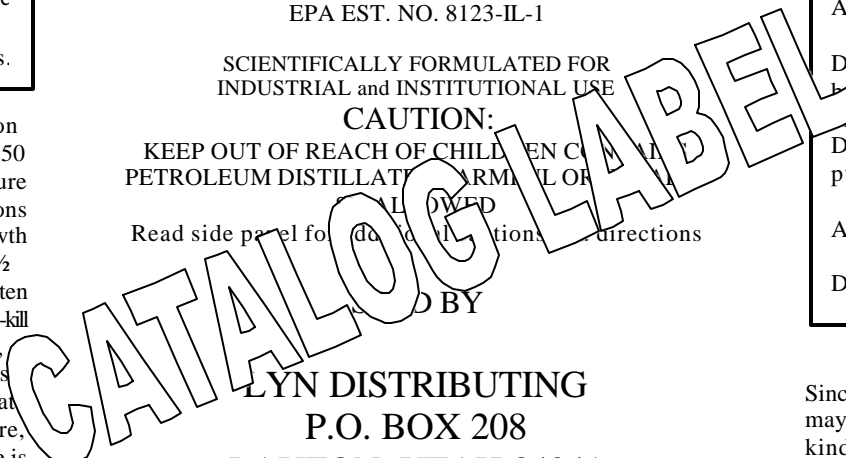

EMULSIFIABLE VEGETATION KILLER CONCENTRATE

Table with 2 columns: Ingredient Name and Percentage. Includes Active Ingredients (Prometon, Methoxy-s-triazine, Petroleum Distillate) and Inert Ingredients (TOTAL).
